Personally, no one gives a shit about you, you could die right now, no one would care about you except your beloved family & friends. As "Moee" has mentioned, behind all is a good person, but behind aircraftkiller, is really an asscrackfiller. G?g

Who the fuck are you to judge him? You're like, what, 14? Not only that, but you stole other people's work and said it was your own, apparently. You ran your own server, and you CHEATED in it(which, granted you're apparently not alone in this, but it's still a shitty thing to do) Not only that, but when bbence got caught cheating by doubling his firing rate with ramjet, what did you do? Oh yeah, NOTHING. Maybe everyone should go into your server with cheats on, because apparently moderators can cheat at will? Of course, that would mean that you'd have less of an advantage while playing, and that would suck. Because you, for some reason, place yourself above other people who just want to have fun, and so you cheat. How about you intend to grow up, and be mature? It comes with responsibility of owning something. As for no one caring about him, the same could be said for pretty much damned everybody if they haven't even MET the person. I don't give a shit about you and that's expected. If ack *did* happen to pass, at least he's done something for the community, what little or a lot that may be to anyone's opinion. Can't exactly say the same for you now, can we, cheater?

Oh, i won't even touch on the fact that you pretend to be other people :\

Owned.
