Goztow wrote on Fri, 28 August 2009 01:01 Only 60 posts and 7 different ip's, who all start with 69.2 ... seems like a dynamic ip to me! Unless he has a lot of different computers on the same ISP, of course .

Out of curiosity, how do server owners handle this? Ban everything beginning with 69.2? The Renegade community isn't that big so that's an option, but accidents do happen...
