i read all the shai links except the last two (because they're both small books)

not sure at what point Animoski lost all power or why, but his version of the story is Volcom / Trojan weeded him out of power

shaitan seems to think it was justified and has a change of heart between the end of January and now (might have something to do with his claim of donation money going towards pot)

seems a bit upsetting to me that the guy who founded the community somehow got kicked out of it  
- i was hoping to get more insight into that part of it

Quote:[21:48:58] <StJohn> i would rather shit on my hands and clap than play there.

i read it as "sit on my hands and clap," and immediately tried to do so

it doesn't work, and my girlfriend laughed at me really hard
