CoD4 and MW2 were two of my favorite ever games ... i can't tell if i'm just getting too old for this shit or what but the most recent CoDs seem like you have to be a braindead moron to enjoy them. they are geared towards keeping everyone at an equal playing field level with the constantly changing spawns and nonsense there's no real strategy. it's like they want the bad players to enjoy being bad and pushed all the good players away ... i loved MW3s face off modes i played 1v1 all day every day and had like a 500 game win streak ... i loved playing league play in Black Ops 2 cause of the possibility to play against professional teams from optic, complexity, nv etc with poison and orca but they got rid of both of those modes now and its basic as fuck

titanfall on PC is a great game, glad i made the investment ... though i bought the whole game plus season pass for \$15.00 when it came out through a mexican website using a proxy lol
