troop you been dogging Atomic way a long time. Hes in {WG}, until you bring me a screen shot of him cheating since hes joined {WG} nothing will be done.

Every day people accuse others of cheating, its so old its pathetic. If he hacked someones nick back on Xphaze, not my problem. As long as he doesnt do it while hes in {WG} I could really care less what hes done in the past.

You keep talking shit about {WG} and keep this shit up. You wont play us in a clan war cuz you only wanna play 16 vs 16 cuz we dont have that many, unlike you, we dont take every person that comes along.

SO grow some balls, like any other clan and play us 4 on 4 or maybe 5 on 5. Put your money where your mouth is and shut up. Just like Da clan [GD] clan [BRA} and [DMZ] you will get beat.

Weve lost one match and that was to GW. Unless you can beat them, do yourself a favor Troop, shut up and stay home.

Your clan has become a disgrace to the ren community, have stolen alot of money from various people, pissed off just about everyone here (including crimson), and you clan supports cheaters (ask Alex himself for proof becuase not only does he have it, so do other server owners), good day.

The current {WG} members took nothing Troop, you have a grudge against Atomicway. So after all the shit youve talked, you dont have the balls to stand up and back it up, Your the disgrace.

Play us one time, test anyone in our clan anytime you want. Every singe player will pass any test you give them. Then when you get your ass handed to you. Shut the FUCK UP. Your a snot nosed little kid Troop.

Very True

And Troop is just jelous becaus ehe lets anyone in his clan at one point in time HE wanted me to join.

HE is a scared baby that will not play when HE says HIS clan IS BETTER then everyone elses but he won't play us.

Atomic, I used to know you as a buddy from the days of +ILL+, you were always haggging around them 24/7, then I cam along, 1vs1 sniping tryout, i was instantly in the clan. Few months later, you got angry at henry for not letting you in cuz you were shit, then you started"+ADD+" ROFL. Wow, that clan was really great

And it wasnt me who reported him as a cheater, it was Alex and several other server owners, dont just take my word for it, ask them all

Next, you said I let all bullshit people in the clan? Ummm if atomic made it in {WG}, im sure anyone can. While ALL of [+TRPM+]s members are ranked UNDER 100! And we have the 3rd ranked player on WOL, and 50th. And I was ranked 5th myself summer of '04

And I have asked Atomic several times for a 1vs1 CW, he dodged, and 4vs4 aow is not as fun as

more people because it then becomes something about exploiting the map to plant beacons/end game beacons (ie: field, im in the field you plant nuke on our ref..ref=gone), and doesnt show any actual teamplay or skill.

Wow not many clanwars under your belt I takeit troop, there is no endgame beacon in a clan war.

1 vs. 1 proves nothing, anyone can tell you that. So why challenge 1 vs. 1

If Atomicway is so horrible, then why challenge the "weakest" person as you seem to think in {WG}, why not challenge me.

Answer to that question: Because you will loose and look like a fool.

Put your team together 6 vs 6 this weekend. Saturday the 7th. 3:00 PM CST. We choose mesa as our map. Put your team together and play, and put all this arguing into the past and settle it. Challenge is made, right here in Public view, either you will accept it or dodge it. So now everyone here will be a witness to it, so theres no excuses.

Will be hosted by a third party so there is no bullshit of oh we played on this server thats why you won crap.

So either your gonna play or not, whats it gonna be?

Eh, two things

(1) Justin you know it won't happen so flaming the hell out of him isn't going to help. At this point I would ask him straight up if they play anyone - and if so, whom. Then verify those games and the dates the games were played. If a clan plays very few clanwars its almost impossible for them to be pro. Clanwars = experience.

(2) Trooprm02, cmon man - you know better than to throw around 1-sided stats. I was trying to keep the cool here, but now you're just being ridiculous. Out of curiosity I looked up the stats on the ladder and found this:

Player, GamesPlayed, AverageKD

Quote:

trooprm02, 162, 1.3

fl00d3d, 3, 2.7

{WG}S_O_A_S, 9, 0.8

{WG}Dytum, 7, 0.5

Just play {WG}. If you lose, accept the loss and also accept the knowledge and experience you gained during that loss. Use it as practice and get better - so that you can earn your right to taunt them and make them want to dodge.

+TRPM+ I'm sorry if I'm getting on your case about this, but these sorts of things really kinda piss me off because "dodgy" clans are a dime a dozen these days. Everyone claims to be the best (www.clan-bio.com, BiO clan claims to be "the best teamplaying clan in Renegade" in their scroller on the front page of their site) yet dodge ever war thrown at them and never get any better. The only way to get better is with practice. And practicing in private inter-clan wars or funwars just isn't enough. You need to get your ass beat and beat hard so you can wake up and smell the coffee. Create a clan profile on clanwars.cc and see what you rank there - and forget about any other ladders.

I even offered to play you guys 4 {WG} vs. 6 TRPM members, you wont even reply. Do you realize how stupid this makes you look really.

Now heres a screen shot taken today of how PRO troopm02 is.

Now tell me what this screen shot proves, either he just joined, and hardly played at this point, or he just sux.

But I guess this is a bad comparison, Cuz we know troopm02 sux, so guess cant really do any kind of a comparison on that. But I think most of you get the idea.

{WG} guys played how many games in your gay little server?

Now how about if about 6 of us just jump in your server. Ill bet ya we take the damn thing over and crush whoever else is on there. Including your little TRPM boys.

Troop, your clan honestly isn't great at all.. I remember when I used to be some sniper noob and you would ask me to join your clan every time I played.. The only real reason that I even considered it was because you told me Orcaflam3, one of my friends, was in it.. Which I found out to be not true. :\ You literally asked everyone to join your clan, no wonder you have 15 or however many you have.

Alright, let's not go too far with the bashing here. When my FPS leader accepts a clan into the community, they do not take into consideration how good you are. +TRPM+ needs some work, but I wouldn't keep turning the knife (if you know what I mean). Aren't there other fish you can eat? Let them live in the shame of this thread and move on.

I really dont think he understands what was said about rank earlier. Rank on WOL/XWIS means you play alot, have no life, thats all you do. It dont mean your good.

Troop youve dodged every clan war challenge youve ever had havent you?

Have you ever actaully had a clan war?

Do you ever accept challenges at all, or just totally dodge them?

That and nice dodging, troop. You ignore the thread until you post some pointless statistics. You realize that you only look more and more like a fool when you post? If you're the leader of the clan, I can't imagine what the rest of the clan is like.

The community leaders facilitate the clan's "merger" (more or less, 'joining of the community') but doesn't really have any direct authority over the clan. I designed it that way so that there was no true "leader" over a clan so clans could run themselves completely independant. The FPS community leader can, however, ask him to stfu and remove them from our community. However - that is a bit drastic for someone that just isn't that good. I'm going to talk with their clan and put all the facts on the table. I think that you guys have smashe the hell out of TRPM enough (lol) so just let them be.

I love thier site, it makes me laough everytiem I see it.

heres a small quote from thier site actually a couple of them:

Quote:You also get to compeat along side us in practice and against other clans. We are very competative against other clans and we are becoming an unbreakable force!

Quote>Welcome to the Official Website of the [+TRPM+]C&C Renegade Clan! This Clan was started in July 2005 By trooprm02 and trooprm01. We both have been playing this great game since the day it came out and haven't stopped since. We started this clan because, we were tired of trying out for stupid clans that sucked. Under trooprm02 I was ranked anywhere from 1st in the Summer of 2003 and am currently ranked 18th in North America. Trooprm1 is one of the best snipers out there (currently undefeated), so we decided to start our own elite clan. We also have 3 Servers running on XWIS:

They dont even have thier own forums for thier site. Just a "join us" section.

Nice template of clantemplates by the way troopm02.

Oh and banning {WG} for joining your server was funny to, I been playing on thier tearing your guys up, to bad you dont know which name Im using, so you could ban me also.

jschultz9 wrote on Thu, 05 October 2006 21:20Very well put fl00d3d, This topic was made for the fact that im sick of troop running around talking trash, and not backing it up. He made the original challenge, so he should stand behind it and play. If hes not going to stand behind it, he needs to back down and quit running his mouth.

They don't have a full forum because they're in our community which provides many of the forums for them. For example, what are the common forums on any game website?

--Lobby
--Servers
--Join Us
--Members Only
etc.

They have all of that. Though they only control their "Join us" and "Members Only" section which is all part of their private forum. The rest of the forums are considered community forums (part of the community to which they belong).

They are not allowed to have their own forums because that would be absolutely retarded and redundant. They also get everything from Tsunami for free including teamspeak, a professional webhosting package, and a private practice/clanwar game server.

I'm kinda starting to get irritated over this thread because now it is no longer about (WG) versus +TRPM+ its about {WG} trying to make everything surrounding +TRPM+ look dumb and tsugaming is a part of that. Please take your frustrations out on TRPM and not my community. They might not be that good, but not many clans are - and they're working on it. You won the argument ... they dodged ... just let it go, man.

Justin was hosting Zer0bs I believe, and they paid in advance (about \$1000+). Then Zer0bs canceled (dun't know why) and they never took a refund back..)

He never stole money that wasn't his.. Zer0bs simply never wanted the ammount of money they have wasted back. I asked Justin myself, when we were good pals, he told me the whole thing about it. So get your facts straight.

actually they forfeited thier chance at a refund for certain things they did. Which were illegal I might add.

But that is neither here nor there.

Fact is TRPM clan, dodged like a bunch of pussies. Ill take that, just goes to show they arent a real clan, and have worthless players.

Challenge will always stand, anytime TRPM clan grows big enough balls to play, let us know. We will always be more than happy to stomp your asses.

Also you said you wanted a bg game. All your members against all of mine. You will have us outnumbered, but not by much. But you will still lose.

"Few things:

1)I have requested a CW from one of your members like 50 million times, he dodged it, now you come back once I bring this up to try to defend yourself? ROFL

2)Yoo come into our serv today, spam at IRC, ROFL, you really need a life.

3)not only did you steal alot of money from people, but from one of my friends espically, and for it crimson and xwis (olaf) hate you. You got your serials bannedm your IP banned, your nicks banned, all for a reason. "

So to sum this all up:

A)I asked you members for a CW a million times, they dodged, you probably heard about this, then started flamming and asking us for a CW trying to regain the pride you lost, and probally never have. Keep in mind I didn't flame your members when they refused to play us

B)After you got banned for stealing alot of money from a close friend of mine, you also got accused for udp flooding some servers, i dont know the whole story but crimson,olaf and all of xwis hated you, banned ur ip, all your nicks, and everything I then add you to msn and tryed to patch things up with you and glen.

About Justin shutting down a chance at a clanwar or funwar, just seems a bit of a lie coming from trooprm02. Why?

Justin has never denied a clanwar or a funwar. Well, as far as I know.., if so, he would postpone it, never canceled it..

I know I am speaking for all of us.. trooprm is a shitty clan.

trooprm02 wrote on Thu, 12 October 2006 16:05 This will be my last post in this section for clearing everything up

Was not finished, continued:

C) I find it funny that jshultz has even stolen from his own members. When Atomic started his bullshit clan +ADD+, he got a friend of his (diegilove, or something like that), to donate \$20 a month for {WG} to host his 16 player public clan server. After {WG} was banned from XWIS and everything, I remember him losing atleast 1 months worth of money (\$20), if not more, and thats why Atomic and diegilove are no longer friends. Then atomic goes and joins the clan that originally stole money from him/his friend, ROFL.

D) What difference does it make who I ask for a CW? Like i have said 1 million times, I ask 1 of his members, (they all represent the clan so it doesnt matter who specifically), and they dodged it like 10million times. If you dont belive me, ask atmoic what he said everytime I ask him.

E) 80% of the members asked me for a tryout either from jelly server or non00bs.net, big 40+ player servers. I origianlly started this clan for a community, not for CW's. They are (or where at the time) all ranked top 100 players in renegade, and really high on those servers ladders (trooprm15, aka wrathnuke, was #1 on jelly's ladder for several months), so the argument against player quality doesnt exsit.

F)jshultz, i dont give a dam if you play on our servers, i know your nick is datbird, and i could of easily banned your IP if i felt like it. You also sayed I banned your clan members from our server which I didnt, i only banned atomic because of clan disrespect in the server, which is in the rules, and was instantly banned. I have seen you there, you dont do anything wrong, nor do any of your other members so why would I ban them for no reason?

Thats all for me in this thread

BTW, thanks for all the attention you gave my clan, glad to see we are having an impact on renegades ever ddepleting community. I also don't care how any feels towards our clan, and attention is appreciated I started this clan for no one else but myself in hopes of starting a good community, which i have done, so why would i even care what some idiots on a forum say

Good day to you all

ADD was shut down because the clan died out. They got thier 1 month they paid for n00b. They paid 20 dllars and get thier 1 month, they never paid again so service didnt continue.

Like people have said about 10 times on ehre, ladder dont mean nothing, means they play alot. Doesnt mean they are good. You have a higher ladder rank on your server then i do, but Ill wipe the floor with you ina game. The reason you have a higher rank is you play there alot I dont.

Are you starting to understand this concept now, or is it still way over your head?

Show me a post on any of our forums where u ever once tried to get a {WG} member to play in a clan war against TRPM. Ill guarantee if you ask me, ill play ya right now. 1 on 1 5 on 5 I dont give a shit. Your whole member list against mine. Lets do it.

Also what ever happen to the post two posts ago being your last post, another bunch of bullshit you couldnt back up huh?

I can confirm that a select few individuals of the previous "TRPM Clan roster" have used name exploits in game. Dunno about IRC.

Anyway this was bumped because +TRPM+ lost 3 members in the last couple of days, their server, and was removed from TsuGaming. So there are some hostilities in the air.

djgrimes and sharpiei are gay lovers!
First sharpiei used a nickname exploit, so I banned him, dj kept suspiciously defending him (althought it was pretty obvious). Then DJ makes a thread about him loving homo's on tsu gaming, THEN i figure out he later payed for sharpiei's runescape subsription, ROFL

LOL yeah not true.. its called freedom of speech, i can post what i want, i did because everyone was wondering obviosly you dont read much, its one of the biggest topics. Me and sharpie? Your kidding right? yeah i would never LOVE him, hes a good friend but no a bf, your retarded man.. And that topic wasnt about ME if you actually read it.. it was about Homosexuality vs. Heterosexuality, not ME.

And I defended him because hes my friend and he did it for a cause, and you know? I WAS in the server at the time but afk, so I ouldnt ban the person. Sharpie always talks to me when he bans somone, he hates you, why would he talk to you? Everyone hates you... Including myself after that retarded post above..

Oh yeah and nice bluff (You know what I'm talking about)

Just to clarify, I had asked troopr02 to show me proof of RRkiller cheating and he sent me screenshots of someone else in +TRPM+.

Though I barely made out the big becon (didn't know what I was looking for since I've never used it -_-) I did in fact finally see it when troopr02 pointed it out, but it was in a screenshot of a different person. I have never to this day seen any proof of RRkiller cheating. Not even a written confession. My only knowledge of him screwing around was the one day revenge crap against TRPM that is documented in a differen thread - and that is because he came to me and told me about it.
