It just started doing this.

Come's up with blank screen than give's me a error message?

Say's game.exe has incountered an error and need's to close.

It also ask for me to put the into the cd drive

Can you give a screenshot? For now you can play with game2.exe which makes Renegade run without Renguard.

http://www.wisdom-soft.com/products/screenhunter_free.htm

free screenshot program which can be setup to run on any key and save them automatically to a jpg file.

If you have the Direx (Cant spell that) Patch and have Xfire running at the same time, Thats your problem, Just log out of Xfire, That did the trick for me!

hi all im having rg problems when i install rg everything works untill rg installs RenGuardPatcherv1.2 and thats when it fu**s up then renegade just says this game2 the application faild to initalize properly (0xc0000005) and thats it renegade wont run rg wont run nothing and even when i take out rg renegade it self fu**s up and i have to renstall renegade everytime can any one help plz.

ps here is a pic of what happens

```
File Attachments
1) ren.bmp, downloaded 81 times
```
