This time I'm sure that we'd allow for it. Most of us would be hellbent on keeping California away from the union.

Oh come on now...all we would need to do is have a little "reconstruction" and they could, maybe, possibly, become normal again. Plus dumping California would make 49 states...the flag would look weird again and saying 50 is a lot cooler than saying 49.

or we could just Annex Mexico and be done with all of this illegal alien crap. Here's irony for you, we could build a wall around California to keep Californians in.

We should replace it with Japan.

I've always wanted a larger stupid little island apart of this country. (Hawaii doesn't count)

Canada will gladly take California off your hands.

Plus, the illegal immigrants will leave instantly, because anything that becomes part of Canada instantly becomes very cold.

I'm on board. Then maybe I wouldn't have to wait so long for an English version of Final Fantasy games.
