okay now im on the computer at work are you going to ban that ip as well

im sure i'm a real menace to the people here. is banning me is really going to help bring the forums out of the hellhole it's become? lol. that's not going to help as it's the rest of the people here, the ones who constantly complain but aren't aware that they cause more problems themselves that make this place what it is.

it sucks that i wont be able to use my rocko screen name but whatever im not going to kill myself over it. you won't ever really be able to keep me away from the forums considering that it's the internet. but really i'm not the kind of nerd that is going to come back for revenge or something. i hope its made your life better now that youve banned me lol.

take care n stay blak lbc

Also, with this forum software to ban you need access to the admin cp so goztow isn't actually banning shit.

It's not incredibly difficult to block open proxies with all the DNSBL's these days.

I don't think anyone gives a shit whether or not you can access the forums. They just want your typical posts consisting of spam to stop, which I think this solves since you'll need to keep a low profile unless you want more and more IPs to be banned.

Ah, my good man Rocko. I think i've been patient with you in the past. Banning someone is never a good thing to do. I think I warned you multiple times, but you didn't seem to care about that.

I'll do you an offer. If you respect you 2 weeks ban, then I'll remove your permanent ban. That means that if you do not re-register on these forums for two weeks and just follow from a distance without posting for two weeks, I'll unban your "Rocko" - account. I'll expect you to stop the spamming after that though, we both know that you can contribute correctly to this community. We both also have other stuff to do than playing hide and seek through proxies.

You can PM me your answer.

I do have access to the user control panel, for whomever asked.

I do consider myself as a "tool" in the way that I'm just the one doing this "job". If I didn't do it, I'd hope someone else would. I don't see how that would be an insult and I certainly hope you don't get a personal grudge against me for it. I believe to do this in a fair way, taking in account the forum rules and trying to be as objective as possible. These forum rules also include "respect moderators", btw.

As to Heavy: I don't know what your problem is. I've been quite indulgent with you: you were permanently banned for good reasons and I gave you a 2nd chance. The things you report are hardly any more insulting than what you say to other people.

I agree, most people who bitch about goztow are butthurt because he locks/deletes their pure bullshit. Or doesn't care about something that apperently "hurt their feelings" when it's obviously pure bullshit aswell.

Blazer and Crimson do move topics when I'm not around, so don't consider them as inactive. They don't have the time to keep up with user warnings, ... though.

This summer's must see movie - "The Goztow strikes back"

Quote:

The sequel to the first film "A new hope (for Renforums)" and the second in the "Star Moderators" trilogy, "The Goztow strikes back" features Goztow as himself, the amazing moderator, who is now well known for his antics in battling trolls, putting out flame fests and moving spam.

The trolls come up with a method of internet-based stupidity in this film - attacking Goztow directly! Goztow is forced to enter a long internet drama war in order to save his moderator title, and prevent RenForums from being overrun with spam.

Starring -

Goztow - as himself

Rocko and Trooprm02 as the head trolls

Danpaul88 as Goztow's loyal user friend

Blazer, Crimson and Mac as "The admins"

Music by AircraftKiller, with the popular intro theme "I DESLIKE YOU"

Also starring:

An army of vicious internet trolls

Directed by CarrierII, produced by www.lolatthisfilm.com, and post production effects by Reborn
(So, no, it will never get released)

Comments?

(Edit - NSS, you've never looked in Jelly-RA Marathon then? That's where I normally am)

Yup, because he does the job of being a moderator that was assigned to him well, doesn't do illegal bullshit, doesn't waste his time trolling forums, doesn't ignore topics created about him, etc. I'd say he's pretty cool.

Nice job avoiding yet another subject. And yes, I'd say there's quite a few cool people who play rp2, actually. Because, y'know, they're not the types who jackoff to endgame screens in Renegade. Instead, they play it casually to have fun, much like myself.

Which is why video games were made, to have fun. It's fine if in your opinion good competition in Renegade is fun aswell, but sadly you seem to ignore that, so I don't know where on earth you could stand on such an issue as to what would be cool in a video game.

I have recently began printing my end-game screens. I have some taped on my bedroom walls.

Precisely what I'm talking about. It's hilarious.

there are a few things i expect to see when i come on here, some of them being aircraftkiller, sadukar09 when trooprm02 is around (he is always around), carrierll, cheesesoda, rocko, goztow, starbuzz, horqueer, etc.

it's just not the same when you get rid of people, they make this community what it is

i loved reading the troop posts when he would get owned continuously but couldn't admit he was wrong, it was great fun for everyone since in the end he still thought he was right while everyone else got to laugh at him

i love reading rocko's stuff because it makes sense, it's just mildly absurd but hysterical

horqueer is great because everyone can agree on hating him

i enjoy seeing ack eat people, and cheesesoda rambling using large words that are used mostly in dictionaries

i say let shit roll and let the ren community be what it is ^^

reborn wrote on Sun, 08 June 2008 18:52Goztow is not a shitty moderator. He is the only mod that has ever responded to my "report message to moderator" submissions. I think he is more then fair and has more patience that I have with nuisance forum members.

I deal with those two you know... I may not message the person like "DEAR CITIZEN, THE EVIL WHICH WAS WROUGHT UPON YOU HAS BEEN VANQUISHED... WEAR A SEATBELT!" *flies away* But when I think it's appropriate I move and or remove posts.
