This is a league where anybody can make a clan and compete. Right now I will be honest and say the league is not very active, but I think bringing in the right people could shape up the league. It is a free sign-up and they give out free prizes{latelty the top 3 warriors in the league(for each month) get to pick out a game of their choice for free sponsored by EA}. I just got red-alert 3 for free this month . I am not sure how many people actually know about this so figured I would let you all know. If your interested the link is here.

http://www.clanwars.cc/league_home.aspx?GID=25

After you look at that link sign up at the forums here. <http://www.clanwars.cc/smak.aspx>

Make sure you put down your MSN in the contact list thread to start playing Clanwars.

Good Luck ALL!!!

P.S. I know this is old news, but just in case some people didn't know I am trying to revive the league and also get decent people to play in it. I know cw.cc has the reputation of immature 5 year olds who just flame each other and have no sportsmanship at all, but it is not like that anymore and most people have left. I hope you all will help by participating in rebuilding the league.

Thank you for your time.

For your information it is not like that anymore because they all left....so whoever joins would in a way make the league reborn.

Out of curiosity how would you even have a clue if you do not play in the league...

Also if you don't have anything to contribute positively then don't even respond next time.

I see tons of people(around here) who claim and assume do play there and they are 2 yr. olds basically, also a few days ago I ran into someone who does and got the 2 yr. old bit from him(i.e. I am so pro because I play in this league.), I don't mean to flame or be mean I'm just stating imo it has not changed that much, thus why I don't care for it.

Oops sorry missed the first part....Well best piece of advice is to just ignore them. They do not represent the majority of the league. The more you respond to them the more you feed them. If you just ignore them they will go nuts Plus if you go on the website and check you can see activity is basically dead and all those immature people have stopped playing.

I have never fed them tbh, look through all the threads in spam fest or clan forum, might have ONCE but no more than that.

So if the league was not like that(which it isn't at the moment) are you implying that you would give it a shot?

My clan used to get involved in tournaments and leagues years ago, but we've eventually gotten

tired of the immaturity.

As you can see in the thread the gloves guy aka Loki *cheat name removed*nerd is the only retard. He will be getting banned.
