What I wanna do is reverse which sound comes outa each of my headphones so that what I hear in my left ear is now heard in my right ear.

I run vista, any ideas?

You could turn your headphones around to put them inversely on your head?

Are they shaped strangely, making it awkward to turn around? Is that why you couldn't just rotate them?

I'm not sure you can do that, sorry. At least, as far as I know you can't, could be wrong.

Any particular reason why you want to?

There may be options in the Vista Audio CP to reverse stereo, or in your sound card's CP.
