Hey guys.

We hope you liked our most recent update. I'd just like to say that our HD download for the Renegade X trailer is now available. It is a high quality version, with a few improvements over the one found on YouTube and other venues. Also available for download is the Renegade X remake of Stomp, which is found in the trailer.

In case you haven't seen the trailer, you can find it on YouTube here:

And now for the download links!

It's looking very sexy. Shame though, I seriously doubt my computer can even run the UT3 engine.

To Fobby and the rest of the Renegade X team: Amazing progress and another well-made trailer. I'm really looking forward to seeing what's next.
