Remember my big 20 reticles pack? I had a few more reticles which you can now download. As you already read it contains only five reticles. I don't want to make atm. Maybe later when I have more time...

Of course you can also download it on my modding page. Have fun with them ^^

24 was the first one of this package (createtd ~one year ago).

It is my improved version of renegade's original reticle because really like it.

Crimson is a chick.

Don't go around asking for power. You'll find yourself at odds with almost everyone, and surely will never get it.

I never played Halo so I don't know if I made a reticle which looks like one in Halo.

24 and 25 remind me of Metroid Prime.

Yea maybe... I never played Metroid Prime either XD. The father of the idea for reticle 24/25 was, as I already said, renegades original reticle.
