Here's some random loading screens you can use.

In case you need to be told (shudder) the loading screen is the image shown when you're loading a game or connecting to a server.

Apache

Ion Cannon Satellite

Overhead Map (Second-to-last-mission)

They look really good

I might use some of them.

Making these is easy, so if anyone wants me to make one with a certain image just post it here and ask... the size needs to be 1024x1024, I can resize it though, so make sure the image size is at least close to that so stretching/shrinking won't ruin the image.

Kinda lazily done. Add some more to them rather than just ripping them, please.

I agree they're lazy. I just don't feel motivated to do a lot of work over an image that will be seen for about 2 seconds.
