Credit you for what? Lifting textures from games you don't own, basically having done no work at all?

So you did absolutely nothing and you're saying it's your texture pack. No, I'm afraid it doesn't work that way.

many peoples from RenegadeSkins appreciated those skins, your the only one who is against peoples work for a game who is dying. you think your the greatest and nobody else is like you.

and i saw many peoples doing skins modified from other games and nobody said "its not your work". if you don't like them, ignore them. thanks.

You just can't take criticism. Also, Aircraftkiller is right. You're taking credit for something EA/Blizzard made, even if you ported the thing, it's still owned by EA/Blizzard as the original creators, hence the copyright. They gave you permission to use it and most likely not even permission to SHARE it.

Besides that, what I have learned from many years on this forum and other forums is that people often think that the most shitty modifications are just awesome. Hardly any quality work is made for this game and people take the shit they get for granted.

Example of quality work on this forum: Aircraftkiller's Fjord map, Taz's map and other decent maps.

Example of shitty work on this forum: original textures with a camo pattern applied to them and the "creator" claiming it to be his own work. (And there are many more!)

Wow, you basically said "I want everyone to kiss my ass." Please go away, I can't honestly think that anyone wants you here.
