wilost0rm has hacked The Gaming Realm, a forum j4295602 and I run for fans of computer games. He has threatened to shut it down, and has made it impossible for me and j4295602 to access it, even though his IP has been banned. He has also, on Aol Instant Messenger, threatened us with death. Though we believe these threats to be groundless, we do believe he means it and just doesn't have the resources or the drive to attempt to do it. We believe he lives somewhere in Missouri, (I live in Ohio and j4295602 will not divulge his address) If anyone wants copies of the conversations we have had with him, including one with him threatening us, PM me or j4295602. The transcripts are stored on our site, so if it goes down, so do they. Any help with this would be greatl appreciated.

You should get a hold of the Feds, I heard that they don't like people who hack/attack servers and threaten to murder someone.

Ponder this for a moment before you shrug off death threats :
Is a crazy person going to call you before they drive across the United States to kill you? I think not. Let's say he or whoever live 1,000 away, what if their car gets 30+ miles to the gallon? Just contact the FBI, what do you have to lose?

You : "Hey, did you hear that noise?"
Your friend : "What noise?"

You see where this is going, or at least I hope.

Pull out your rifles because you think it's the lunatic, open the door guns drawn, but it's the FBI?

take this shit. josh is not mad with me im un banned by my own need and tarsons9 will be banned thank you.

Did he break any special rull of EA? All because you think he is an asshole and he stole your mods dosent mean you ban him from EA games entirely...I MEAN ITS JUST A MOD. Im not saying mods are stupid and a waste of time but it is just a mod and its nothing to take such a drastic measure for. And sure ive been bad mouthed before but if I had the power to ban I wouldnt just ignore them.

i'm confused, is the little ignorant idiot claiming to be some kind of employee for ea games? just wondering, since he writes like a 12 year old and i thought there were minimum age requirements for employment.
