Clearly havocman was ownt and he is most likely crying to his mother. Notice the stupid thing about his resignation. He says he has left the community yet flames on.

He knows we dont want him around but like vermin he stays around. This guy is a grade A n00b and is well diserving of the Banhammer.

Someone send it to me via email, I can upload it to my server(unless it's a really big file, people will complain about slow download speed). Whatever this is, must be good.
