Yeah yeah remember the gamespy vs wol game. That was a whole lot of fun, some good rivalries and a lot of fun to set up and play. So why is a renegade forums vs cw forums matchup so wrong. Back then we had captains and just chose our teams from what we had, so why can't the same happen now? It could be just what this game needs to give it a little life. It doesn't have to be anything but some simple matches. It's not unheard of for people of different forums in games to compete against each other. It's human nature to be competitive and have fun. Why be against something that could provide both?

Because it's not about having fun, or making the game live, it's about CW trying to prove they have the biggest penis.

It gets old after the thousandth time they keep going on and on about stupid shit like this.

Maybe they're trying to have fun though. I mean I think it would be fun. What would happen if these forums won? It'd be a major upset and it would shut cw up forever.

The posts in their forum say otherwise. It's a penis size contest, nothing more.

I don't have time to waste playing some game like this against them. Regardless of what we do, win or lose, they'll keep talking shit. It's a worthless cause and I'll have nothing to do with it.

of corse it would be fun u moron a 15v15 or 20vs20 with no n00bs in the game at all

The last fun time i had on renegade was the all star game 17vs17

If it wasnt fun do u think we would bother challenging u? if it wasnt fun do u think we would still be playin this game any more?

I dont no about everyone eles on the CW forum but its not about whos better because clanwars already knows we are better its about having fun

Theres no use in trying to reason with him. The CW vs Crimson did have a point to it; that u all suck. ACK you dont have time to waste? Yet you spend your entire pathetic life on making maps for a game that has been dead for over 2 months? Oh wait, am sorry, to you all here its not dead - everythings fine - of course you are all the no lifes sitting home playing this game 24/7. Crimson will lock this when she sees it, of course we challenge them and she never answers. We challenge them and ACK says "not wasting time". We'd fuckin own you, even the average players like me and IceSword will fucking own you. You see Ice might be scared of getting banned, but me i can give 2 flying fucks if i get banned. Why? Cuz these forums are bullshit. Crimsons incharge of it? LOL its BS, if its "Community" forums then nobody of any part of this so called community should be banned just for stating their opinions, and this isnt n00bstories.com for Crimson to be incharge of it. Even if i do get banned its jsut proving ym point. This side of the community sucks, nothing but ppl like ACK making maps all day, Crimson boasting on how shes "helped" and dedicated her life on working a game thats been dead for bout 2 or 3 months now. And then you dodge our challenge? LOL...

that's the same where ever you go :/.

and you guys are wasting your time trying to get them to play. ACK and crim are ex-WL..it's in their nature to refuse matches. they've tried getting games vs noobstories before, no luck. tried getting wl to play at savage, no luck. it's just how it is.

whether they admit it or not, the game we're proposing WOULD be fun, but i guess they just fear that they would never hear the end of it if they lost, which is understandable..there are a lot of little kids in clan wars forums (im sure there are here, too).

Back up what? I don't recall anyone saying anything that needed to be backed up. You guys came in here and started this stuff, and we won't accept. We have nothing to prove. No one in their right mind would accept a challenge based on unfounded, immature insults. When you want something to go your way, you ask, you don't demand and coerce others to accept. That is why no one is ever going to accept. It doesn't work that way in real life, it won't work here either.

You do realize, if a forums match was to happen, kids like IceSword, Qickshot, and 50cent or whoever they are, wouldn't be playing. I'd assume that both sides would take their best 10 or best 15,16, whatever the size of the game is, and they would play. Those three would not make the cut for either side. The main players talking the trash would not even compete, so I really don't see why they are an issue. They're not really accepted at either forum. They're just not as strict and banning of these people at CW because those aren't the official forums. Crimson has to upkeep these forums so she does and will ban them here. Just know that these are not and would not represent the CW forum community.

No, the CW forum community does not represent itself in that manner. Those who would be in a forum match game don't at least. These guys post at CW but they aren't really acknowledged. They just haven't done anything to break any CW forum rules, so they can't really be banned. CW forum members present a challenge in a respectful manner and don't use any l337 language and improper grammar like the juveniles in this post have displayed. It is just the overall opinion that all CW forum posters are like that because of these few.

Part of that was due to one, probably Icesword, fake posting under her name. They're not all juvenile, and in fact none of the actual CW clan members are. There are also many others from other clans that post there that are not. There are however some like the afore mentioned 3 that are, but those are everywhere these days.

CW forum members present a challenge in a respectful manner and don't use any l337 language and improper grammar like the juveniles in this post have displayed. It is just the overall opinion that all CW forum posters are like that because of these few.

Uhhh... MOST are juvenile (I don't think all are though. At least I don't have any proof of them all). A simple example would be crimsons recent update on the renguard program. Almost nothing but flames.

Part of that was due to one, probably Icesword, fake posting under her name. They're not all juvenile, and in fact none of the actual CW clan members are. There are also many others from other clans that post there that are not. There are however some like the afore mentioned 3 that are, but those are everywhere these days.

Sigh aparently u think u no me but unless ur from the clanwars forum on a smurf name i have never seen u before So u dont no me so how bout u just keep ur mouth shut.

Ive been nicer to crimson then anyone on that site the last week sense she unbanned me and i intend to stay that way.

You can be nice to her all you would like, but that won't get you into any kind of match as I don't expect Crimson would pick you, and I know you wouldn't make the CW team as it would be like an All-Star game and you're just not All-Star material.

The people that matter would participate if a match ever was agreed upon. It would be a game for fun and that's all. People like you are the people who would brag if you won or whine if you lost and that is one of the main reasons why you wouldn't be participating.

Jesus, I can't believe I read this whole thread. There is nothing but astounding ignorance and acute fucktardation seeping out of almost all the representatives from the Clan Wars Forum.

Icesword7, x50centx, and various other children have been given a far more than generous chance to post on these forums. Crimson has it all times been able to unleash her ban finger on each and every one of you. And it is beyond me why she hasn't. You've been derogatory to her on countless occasions, you serve absolutely NO productive purpose other than to annoy, and God, Icesword actually called her house to insult her over the phone, (and from what I heard, you sound like the small, high pitched fucktard I pegged you on from day one). You're a disgrace to the entire Renegade community, and those posts on the Clan Wars Forum prove it.

I don't care much for racists, either, Mr. Culler.

Joke or not, it's a racist comment, and thats the whole point. Racism to any degree is not welcome here. I'm sure there are others who dislike other races, but they don't bring it into the forum or into the game. If you kept it to yourself, we wouldn't have known this about you, and therefor been unable to judge you so.

Edit: as for joking around with my friends and saying something similar, I don't even swear, let alone make racist comments. So I can answer that question with a no.

Before others get drawn in, there are some here that have an unappealing past (ex. those who were WSE affiliated), but have been able to redeem themselves. You also have that chance, but considering the circumstances, it will take a lot of hard work.

How about a community poll to ban certain juveniles like IceSword7 and any other degenerates he brought with him (i.e. x50c3nt, Hydro, n00belit3, xC4pRoX, SloMo, etc.)? That way if they want to blame anyone, they have to blame everyone. Personally, I hate racism myself and it's one thing to insult something someone says on a forum or their on-line persona, but I think it's unacceptable to insult a person's race or physical appearance. Maybe all of them haven't done so here per se

Yes, and he also ruins threads like yours.

This is a dumb idea, and will not happen, unless a community leader wants to organize this. I see no reason they would, as CW is notorious for talking smack, and stirring people up. It's the primary reason most of them were banned from this forum so long ago before most of you were even here.....

If a respectable group like Renevo was to ask for a match against the best of this community, I would support it though. It would be a clean game, with no real losers. Everyone would enjoy the pleasure of playing alongside the greats, no matter what side they were on.

The biggest hurdle in the way is this:

CW was pissed that WL usurped their #1 spot in the clan ladder and thought that we "exploited" it (even though I don't think it's cheating to know how a ladder is calculated, do you?) -- so we decided to do 7 matches, alternating on their server and ours, 7 different maps. Best 4 out of 7 takes it...

So we get in the match -- WL wins the first 3, then CW takes one, then WL takes another... we keep going onto Islands. Now this is the 6th map, their server. We run through the tunnels into the Hand of Nod as basic minigunners and toss our C4 on the MCT. We defend our C4 until the hand blows up. Now one guy on their team hadn't loaded yet... apparently his computer was REALLY slow.

Then CW spends weeks arguing this map, calling it unfair that we didn't wait for them to load, though it hadn't come up in the 5 maps before. They couldn't argue the other 4 times they lost, and we didn't argue the one time they won... but they refused to concede the match and to this day, they'll say how horrible of a clan WL was... completely invalidating the entire matchup because of 1 map. You know, that's why we said 7 maps and not one... even if we threw that out, we still won 4 out of 5 maps against them.

So, if we matched up against CW, it would solve nothing. If we won, they wouldn't accept us as better players, maybe even accuse us of bigheads, point whoring, n00b tactics, you name it... and if we lost, it wouldn't change the fact that the people on the CW forums are a bunch of idiots.

Aircraftkillerx50c3ntTheres no use in trying to reason with him. The CW vs Crimson did have a point to it; that u all suck. ACK you dont have time to waste? Yet you spend your entire pathetic life on making maps for a game that has been dead for over 2 months? Oh wait, am sorry, to you all here its not dead - everythings fine - of course you are all the no lifes sitting home playing this

game 24/7. Crimson will lock this when she sees it, of course we challenge them and she never answers. We challenge them and ACK says "not wasting time". We'd fuckin own you, even the average players like me and IceSword will fucking own you. You see Ice might be scared of getting banned, but me i can give 2 flying fucks if i get banned. Why? Cuz these forums are bullshit. Crimsons incharge of it? LOL its BS, if its "Community" forums then nobody of any part of this so called community should be banned just for stating their opinions, and this isnt n00bstories.com for Crimson to be incharge of it. Even if i do get banned its jsut proving ym point. This side of the community sucks, nothing but ppl like ACK making maps all day, Crimson boasting on how shes "helped" and dedicated her life on working a game thats been dead for bout 2 or 3 months now. And then you dodge our challenge? LOL...

Insult me all you want, I'm not going to play you. I doubt anyone else will, either.

Why do you spend your time brooding over people you've never met, and never will, over a game that you think is dead?

Oh but ACK i will insult you whenever i get the opportunity. What? You think i will ever like you? Plz. If you call what i posted insults then you really dont kno me. Shit, in this post i can jsut insult you, but i wont. Not worth it; like you said, i think the games dead (which it is), so theres no reason in getting you to play a game. But you say CW trys to prove how "big there penis is"? OMG we're not trying to prove anything. ACK you kno as well as i this useless beef from CW to n00bstories has been around ever since n00bstories was created. We talk shit, you guys talk shit, but what i cant understand, why not play to see whos better? I mean, obviously the winner will gloat, its the nature of this game to gloat after a big win. Is that what your scared of? Of n00bstories rep going down the drain if you lose? OMG, and you talking bout lifes? ACK you spend your time making maps for a bunch of 14 y/os YOU never met...yet you choose to critisize my life? STFU. And you wonder why most CW players have no respect for you (cuz u talk shit but never play)?...geez...

So, if we matched up against CW, it would solve nothing. If we won, they wouldn't accept us as better players, maybe even accuse us of bigheads, point whoring, n00b tactics, you name it... and if we lost, it wouldn't change the fact that the people on the CW forums are a bunch of idiots.

Oh darn. We should be ashamed of ourselves for living "up" to your standards.

Maybee if we started spelling everything wrong, lost all concept for grammar, and misused the English language like you, we could trun this place into the kind of thing you would like to see.

Nah.

Crimson, we wouldnt accuse you of BH (not me) seeing as your doing all this crap to fight against it, its pointless to accuse you of it. you'd have to be an idiot to accuse you of it...we just wanna play - face it to us Ren is dead, to you people here its fine (except with the cheats) but we would like something to do until Half Life 2/Savage/Halo comes out. It'd be doing 2 things: entertaining us, and ending this useless bickering, dont you agree? Just a big game, a 15v15, we have bout 2 or 3 people that can host that many, you guys pick map - we just need something to do. So at same time why not end bickering? Its killing 2 birds with 1 stone. But then we have ACK saying hes not wasting his time, n00bs here insulting us, Jav insulting us, you insulting us, and you seriously think we'll take that? And if your so scared of us gloating or insulting you when we win then your pussy. Cuz obviously thats what going to happen - like i said its the nature of this game.

I'm not afraid of losing. I never claimed to be really good at this game. I do claim to work well as a team member, but I'm not the highly-skilled Rambo-type player. I don't even have great aim.

Unfortunately, CW has a bad record of blaming everything EXCEPT lack of skill on their losses. Here's a list:

"OMG you exploited the point system. The point system sucks!"

"OMG you loaded the map .8 seconds faster than I did! NO FAIR"

"OMG that was a lag kill. You must have cheated!"

It's never just "good game, guess you won that time" with them. They're good players... don't get me wrong. They were certainly a challenge unlike most Renegade clans. We just adopted voice communication early and learned how to use it.

Plus it's hard to say "n00bstories vs CW"... first of all these forums are separate from n00bstories. There are plenty of people who go to one site and not the other, and plenty who go to both. Also, I don't necessarily think everyone who posts on n00bstories.com is a good player. I just provided a place for people to tell stories and let the votes decide who's a n00b and who isn't.

On the other hand, thank you for finally posting in a mature fashion. I hope you can try to understand where I'm coming from and the nature of these two parts of the Renegade community... since you don't visit often you've been left to make your own assumptions.

That depends on what you mean by "dragged down to their level", I guess. They're beating around the bush, and I'm pointing it out with a nice dose of vitamin FUD.

I do understand where you're coming from, i myself used to hate the clanning community; i hated SPUDS, PAW, DOA all those good clans. But you just like me should know that whatever you say everyone at CW well just think of it as dodging. And Crimson CW has changed, the type of game were talking about is a large game, just not you guys here vs the clan CW, a 15v15 where not only CW will play but a few players that post on the forums there. And yes i do understand the nature of both sides. But like i've said before, we're not looking for a game so when we win (if) we will get to call you guys names and annoy you people here; we're looking for a game where we can have something to do. Something fun, so that both communitys wont break apart so quickly...ren can divide into 2 or 3 or 5 communitys, either way its dying and at a more rapid pace, so why not do something to slow it down a lil? We can have a fair host (if we find 1), any bickering or insults from anyone, then they get banned from the server. We just ask that you guys play fair - just like you will ask of us, and we will. Everybody there understands that its n00bish to use any type of cheat in a clan game. If i talk to them bout it, and try and get them to withhold there (and my) temper and feelings about you so that we all have a decent and fair game, will you at least consider it?

Rumble? No you see Kirby a rumble usually involves violence. This is a online game. You see if you ever leave your house and figure out theres more to life than these forums you'll realize that this game is fictional. And rumble? LOL there are only about 4 members from CW who are posting here, and those are the humble ones who dont argue (unlike me), if all of CW posted here you wouldnt be here Kirby. BTW would you like a 1v1?

x50c3ntOh but ACK i will insult you whenever i get the opportunity. What? You think i will ever like you? Plz. If you call what i posted insults then you really dont kno me. Shit, in this post i can jsut insult you, but i wont.

Let me get this straight - you actually think I care if you like me? You believe I sit here, get upset that this guy I don't even know is insulting my person, and you think that I'm losing sleep over it? Here's a wake up call... The only time I give a damn about anyone who says shit like that is when I'm here writing about it. The second I hit submit, I go do something else. Be it make a level, or head to the beach, or whatever else I feel like doing. I don't confine myself to care about your emotions because you're nothing more than some words from some guy who knows nothing about me at all.

So... What's this mean? It means for as much as you may think you're upsetting me, or how much you think that you're pissing me off, I'm sitting here, just laughing at you. Yes, this is actually quite funny... The notion that anyone who thinks that I ACTUALLY GIVE A FUCK about them when they talk shit about me is hilarious.

You want to keep it up? I've got all day and I'm still in a happy mood.

PhilCollinsYou do realize, if a forums match was to happen, kids like IceSword, Qickshot, and 50cent or whoever they are, wouldn't be playing. I'd assume that both sides would take their best 10 or best 15,16, whatever the size of the game is, and they would play. Those three would not make the cut for either side. The main players talking the trash would not even compete, so I really don't see why they are an issue. They're not really accepted at either forum. They're just not as strict and banning of these people at CW because those aren't the official forums. Crimson has to upkeep these forums so she does and will ban them here. Just know that these are not and would not represent the CW forum community.

Clanwars is the best players. period. you dont think so? prove it with a game

On this forum your always walking a thin line. I used that pic for my avatar on clanwars forum and no one got all crazy and said it was bannable, and the admin didn't take it off. Those girls are clothed and not showing anything bad, Its just ack enjoys the company of men. At least on clanwars they let you set your own avatar and not some gay ass icons from tib sun, red alert, and renegade. I can't wait till these forums die.

No, of coures it's not a bad thing 50, it's just so generic offer up a match to a guy and you wanna prove that you're better than him. It's the exact same thing if I were to get pissed off at someone at school and I tell him to meet me out in the parking lot after school because I'm gonna kick his as. And that fight probably wouldn't settle anything anyway because he would just say that I was kicking him when he was down which is unfair. Much like when you own someone and they complain that you were using an aimbot or something. You just gotta accept you loss and deal with it.

These forums are the closest thing we have to official forums for Renegade and I will NOT allow them to be overrun with softcore porn or the kind of intellectually-devoid chatter that goes on in the CW forums. Bottom line.

If you don't like a forum that is run that way, then don't bother visiting. Really really simple solution.

I'm with Crimson.

Crimson was entrusted with the hosting and running of these forums by Westwood, she doesn't HAVE to do any of this... but she does...

Nobody has to do anything at all with Renegade... but they do for you the players.... remember that the next time you go to slag off somebody running a server, producing a mod, running a site or anything else to do with Renegade.

It's people without this respect that just make more hard work and cause slow progress....and eventually destroy what is good.

Were all here for the same reason because somehow it all connects to this game Renegade.

Just spend a few seconds thinking before you go off at somebody next time.

If this poor excuse for "Ren Community Forums" are for the community of ren than both sides would have equal ownage/moderator rights and everyone would have there say in this. Not just your side Crimson. So no these arent "Community" forums. These are the forums for stupid n00bs. Shall iu name them all? Dave, who kicks people out of FOD serve if you say someone cheating, ACK, who seems to think if it wasnt an idea by him, its not good enuf. Example? The "reborn" thread, the link was taken away. Jav, who thinks everyone at CW are "community" rejects. Plz WE CHOOSE NOT TO COME HERE. We were never rejected by any of you n00bs. Shall i keep on? Kirby, "bigjoe", and other useless people who feel the need to post there opinions when its not wanted. Tryin to impress other n00bs in these fucking so called "Communtiy Forums" by stepping up to people from CW like Hydro or Ice and even myself. And top 1 is Crimson, who seems to think she is best person in world cuz she monitors these forums. If these were really community forums both sides would have equal ownage over it. But no they call us community rejects because we dont spend out time point whoring, instead we play clannys. And really you bunch of n00bs, the ones who play clannys ARE the better players. ANYONE IN CW OWNS ANYONE HERE. Even our worst player can own u all. Fuck these forums. That stupid ass statement you made Crimson just proved all my points. I crawl up to nobody, I have respect for Crimson unlike certain people.

I agree with her because what she is saying makes sense, because what she is doing for the community (if you must seperate CW from n00bstories I might aswell say 'the community over here at nobstories') and unlike a few others she acts resonable, mature and freindly.

I also refuse to waste my time replying to people who further pick at my motives.

Disclaimer: When I say 'unlike certain people' and 'a few others' I have no specific community or any one person in mind.

One problem with your line of thought. The community forums run by westwood followed the same organization. Only westwood employees were allowed to be moderators. Both sides of the community never had any say in how things were run on that forum. They could suggest things, yes, but the same is allowed here. However, there was no promise that it would happen. Crimson was given ownership of the forums, and for better or for worse, she has the right and privilage to run it as she sees fit. She has, however tried to stay true to the original forums, though with less censorship. If she wanted to, she could have banned you after your first post, for whatever reason she wanted. The fact that you continue to post shows that this hasn't happened. Just don't press your luck, as I'm sure even a Westwood employee wouldn't tolerate the stuff you continue to post.

But if she bans me or if she wouldve she wouldve just proved my point and the point of people at CW. You know, it's PROBABLY a good idea to think before you type.

x50c3ntClosest? Bullshit Crimson and you know it. If this poor excuse for "Ren Community Forums" are for the community of ren then both sides would have equal ownage/moderator rights and everyone would have their say in this.

Actually, at one point, you and your little friends all had equal rights and saying here. Remember the ToS? Yeah, that thing you clicked on saying "I agree" to when you registered? When you violate that, you're forfeiting all those rights you think you have. Don't think I'm making sense? Maybe you should read them for yourself.

Quote:So no these aren't "Community" forums. These are the forums for stupid n00bs.

And you're basing this off of what evidence? I'm not seeing any. Crimson is making every attempt to save this game regardless of your opinion on the subject. The fact that you kiddies (or anyone standing in the way of a potentially good thing) are presenting an opposition boggles the mind. I could easily cite references from your "community forums" which show that you and your pals are "stupid n00bs", as I'm sure anyone could. Your blindness to it is astounding.

Quote:Shall iu name them all? Dave, who kicks people out of FOD serve if you say someone cheating,

I haven't seen Dave kick anyone on the FoD servers, so I can't accept or deny that claim. I can only assume Dave is using his judgement in determining whether someone is cheating or not.

Quote:ACK, who seems to think if it wasnt an idea by him, its not good enuf. Example? The "reborn" thread, the link was taken away.

If you had any idea who Aircraftkiller was, then you would know he is offering direct and total criticism with no holds bars. If Reborn can't take it, they should've quit before they started. I'm not perticularly partial to either side.

Quote:Jav, who thinks everyone at CW are "community" rejects. Plz WE CHOOSE NOT TO COME HERE.

Actually, I think you kiddies were banned for your continual violation of the ToS. Not because "WE CHOOSE NOT TO COME HERE."

Quote:We were never rejected by any of you n00bs.

You're right, you weren't reject by n00bs. You were rejected by members of this "official" community.

Quote:Shall i keep on? Kirby, "bigjoe", and other useless people who feel the need to post there opinions when its not wanted.

Does anyone else taste the irony?

Quote:Tryin to impress other n00bs in these fucking so called "Communtiy Forums" by stepping up to people from CW like Hydro or Ice and even myself.

When you and your little buddies go around insulting this community, we're not trying to "impress" anyone as we are defending ourselves. Maybe you should reconsider what you just said, because it doesn't make any logical sense.

Quote:And top 1 is Crimson, who seems to think she is best person in world cuz she monitors these forums.

LOL. Where are basing this on? She is one of the most modest people in the community. Informing the CW forums of the status of the RenGuard is hardly boasting herself above you people.

Quote:If these were really community forums both sides would have equal ownage over it.

No, a good part of the people who emmagrate from CW to these forums and back, have been banned here for violation of the ToS. You seem to have it stuck in your mind that how you act in CW can be used here. Obviously, you were mistaken.

Quote:But no they call us community rejects because we dont spend out time point whoring, instead we play clannys.

No, I'm calling you a community reject because you were banned, and for some reason are trying to leave a mark here with your consistant ignorance and blathering. Sure, you don't have to believe that, but that is exactly what you're trying to do from my viewpoint, and the viewpoint from any other intelligent person who knows of your involvement with these "official" forums.

Quote: And really you bunch of n00bs, the ones who play clannys ARE the better players.

Last time I checked, this sentence didn't have anything to do with "ownership of forums" or any other points you're trying to make accross.

Quote:ANYONE IN CW OWNS ANYONE HERE.

You seem to be thinking outloud, and without much thought I might add. You haven't made any point, and nothing Crimson said has anything to do with ANYTHING you've tried to explain. It's easy to say "ban me and your all just proving my point." but your problem lies in having a point to behind with.

Wherever people post incorrect assumptions of people, wherever some n00b accuses someone of doing something that I believe that they wouldn't, wherever someone attacks someone who doesn't deserve it, I'll intrude and try to educate the person on the truth (as I did with Captkurt). You don't like me doing that, think before you post and don't post garbage that is incorrect or blatantly insulting. You (CW) started all this with the attempt to insult us (the renegade forum community) and goad us into a pointless match. Then you complain that when you continue to insult, that Crimson will "prove you right" and ban you. And you wonder why people consider CW to be community rejects. It's because all you do is insult those who have gained the respect of the community, and have earned the trust of the Renegade producers. I bring to your attention the thread in the CW forums where Crimson did her job as PR of RenGuard and announced it. All she

was met with was hostile remarks and insults. And I say again, you wonder why CW are considered to be community rejects. You come here without provocation and start flame wars and insult the community leaders. And yet you wonder why CW are considered community rejects. You use your free time to create photoshop pictures (which by the way, is illegal - <http://www.onlineharassment.com> -) insulting, once again the community leaders. And you STILL wonder why CW are considered community rejects.

I haven't made any excuses toward playing a community vs. community game. As I've ALREADY stated, I am totally for it, but your problem lies in getting the rest of the community to play. Furthermore, this community are hardly "n00bs", especially given the broad usage of that term. To answer your other question: I'm 20.

Finally, the humour in this thread is based off the fact that many of you aren't responding to logic, then trying to justify it with "URA FUQIN NUBE 4 KNOT PLAYIN US".

I think it's hilarious that 50's whole argument is that I will ban him for disagreeing with me, and that

banning him will prove his point. So that means if I don't ban him, then he's proven wrong. I like that option.

But the moment he posts pornographic images, is exceedingly abusive, or spams... basically breaks any of the forum rules, he WILL be banned.

Java and Warranto have it right. I couldn't have said it any better.

x50c3nt, well since you did not answer my second question, it seems like the only reason you are here is to annoy everyone.

Is that your only purpose here? If so, I say that's a very stupid and low purpose. I mean come on seriously. You said it yourself that the game died 2 months ago. You said the community is full with a bunch of n00bs. So why stay here?

Seriously, if I came to a community and became a outcast to the whole community and I did not like the game and thought it was dead 2 months ago I would leave the community and never turn back. Why should I stay here. So I can go and call a bunch of people childish names that i know nothing about cause I think its "fun". To me, thats very childish and very stupid.

You're only purpose here is to call people names cause they will not as you say "accepted your challenge". If they will not accepted your challenge you should leave it as it is, go back to the CW forum and talk how much we are "n00bs" there.

And you say your just trying to prove a point???? What point is this???? Cause I still haven't saw it. All I am seeing is you getting ban for being a obnoxious asshole. Seriously, you come on here, call people a whole bunch of childish names and make assumptions about people you know nothing about. And the only point you are proving is that people from the CW forum are obnoxious assholes who like to start flames. Almost every person that came from the CW forum just came here to flame people and put them down. Only people I know that came from the CW forum that did not do that is PhilCollins and IceSword7(Well he's getting better at posting but sometimes he flames people and he thinks its ok to be racist).

So you really did not prove anything. If you had a point to prove you should of did it another way.

You peopl are fcking morons. I didnt even waste time reading half of what any of you posted. All crap. You dumbasses seem to think that CW still plays ren 24/7. No you fools, its not clan CW challenging you it players from their site. But i guess i shouldve listened to people from over there and not try and convince you fucking n00bs for a game. Bottom line you thos part of community is so better than CW, then you wouldve accepted our challenge long ago. I'm not going to quote everything Jav said, its a waste of time. No point either, other fucking stupid ass n00bs will just try and defend him and the fat bitch they call Crimson. Oh and Crimson did i ever argue over banning Gr8Biggie for the porn shit you stupid whore? Shit, if you fucking n00bs here are so great you wouldve accepted our challenge long ago. But i guess you lil fags are to frightened of your rep. But fuck it no use, Javs a n00b, ACK's a 19 year old who spends his days making maps for 14 y/os (no life), Daves a lil 15 year old punk ass pussy who kicks people from FoD serve if you accuse ANYBODY of cheating. And Crimson - your just some fat bitch who has no life, so what do you do? You spend your time home (not in a gym) trying to impress a bunch of 14 y/os over a stupid game thats going to die (already dead) by the time mid October early Sept comes around. Wow you people have great lives. Crimson and you kno yourself u have no life. Any of you fags wanna prove me wrong that you stupid fucks are the better part of this so called "Community" you'd go to CW (where the real good players area) and challenge us to any type of game. But all you fucking n00bs - and especially Crimson who has to resort to foolish games from about a year ago to dodge this offer - wont do that cuz your all fucking pussys. And too scared to even play us. That was the whole point of this thread, to get game out of you n00bs. But once again none of you assholes will. Crimson will probaly resort to past games for back up - Jav will ride her dick agreeing with her - and all the other n00bs will stick up for them. Pointless to come posting here, i'm through posting here, your all pussy. And Crimson's a fat bitch. Fucking n00bs. Nothing but n00bs. x50c3nt trying to impress a bunch of 14 y/os over a stupid game thats going to die (already dead) by the time mid October early Sept comes around

Uhh.. if the games is dying, or already dead, why are you wasting your time here trying to get a challenge from us?

But overall, I suggest you go back and read my last post, if thats one you happened to skip over. Because I don't feel like posting most of it again. I more or less explained why you are treaded the way you and the rest of CW are. (And as you said, not the clan, but people from the site... but we all knew that all along, so I don't know why you brought that up.)

x50c3ntAnd too scared to even play us.

Scared? Really? Since when did not wanting to fight a pointless match just because some immature children DEMAND it of us be considered scared? Oh, wait... I know. It's just someone's childish attempts to goad us into playing a "dead or dying game" as you so elequantly put it. If this is how you act in real life, I feel sorry for you. No, scratch that, I feel sorry for your parent, who obviously didn't to that great of a job raising you. Though I'm sure you'll learn, albiet the hard way, that demanding things from people, and insulting when you don't get your way will NOT get you far in anything you do.

Dispite what you think winning games is not always about braging rights. C4prox once told me "you can only get a good 1v1 when the person is mad at you" and that is completly true to bad even if u got somone from around here mad at you it wouldnt be a good 1v1 because it would be to easy.

Its rare to have a good game on renegade anymore there are no clans and the ladder servers are filled with hacks.

Quote:Dodging is kind of like forfeiting a game there for you automaticly lose before the game is even played.

Nice logic there. In order to forfeit something, there has to be something in place to forfeit first. Since there was no game, there was nothing to forfeit.

Besides, that there just proves how pathetic CW really is. You insult us, make demands of us, then go "you suck we win" when we don't accept under those conditions.

IceSword, I am not blaming you for starting all this, it was x50c3nt who did, as proved in the link you gave. Had it not gone this far, and had the intentions been truely honorable (as in either side not bragging to the loser) I believe a match could have been arranged.

All your doing is looking for an excuse to continue the arguement. Your just tryin to keep this alive and find a way to win this pointless arguement. You dodged Ice so you blaim me for callin you dodgers. Ice asked a while ago and there was no replys, and eh asked BEFORE i started commenting. And that first quote, look closely at what i said - "we asked and you dodged", yet you still feel as if its a demand...when Ice asked and nobody commented. Shit Warranto stop tryin to win this - you lost already. All your doing in pointing out all the insults i said and basically saying becuz of that you wont play. Also,

Quote:Ice asked BEFORE i started arguing and nobody commented

Notice the times between Iceswords challenge, and your first insult, followed by your second insult.

IceSword Posted at 3:17

You follow up with an insult (claiming it isn't an insult) at 3:24

The next insult, after only a few new people had a chance to post was at 4:51

You started the insults BEFORE anyone really had a chance to answer! So quit passing the blame around.

This is what i said:

Now, from readin this post 1 of 2 things can happen:

A - Crimson and her "community" will dodge all of us.

B - Or they will accept, but still lose anyway.

Either way its a win-win situation for us (CW). But it'd still be fun to prove to them how much this side of the community sucks. (No offence of course).

Now notice i did insult but automatically took it back by saying what i said after. Can you read that Warranto? And fuck this refering to past fucking post. I'll keep my mouth shut bout Jav, cuz he proved me wrong. He accepted - only one who did so far. So i show respect and i wont talk bout him anymore. Now Warranto, you still seem to try and refer to past post for back up - OMFG! DIDNT INSULT ANYONE, AND MAYB SOME OF YOU THINK I DID BUT I TOOK IT BACK RIGHT AFTER! Read Warranto. So Warranto dodges, Jav kindly accepts, anyone else? Warranto going to reply and quote something else now? Cuz this is really entertaining for me i hope you kno.

An insult is an insult. Despite your "no offence of course". You could have easily said something else, but you didn't. You willfully chose what you wrote, and you must accept what comes from that comment. Even without that particular post, you still insulted first before most people had a chance to respond. An hour and 45 mins is not very long considering that not everyone lives in the same timezone.

Of course I could bring up this thread:

[http://136.142.210.78/CW/ubb/CGI/ultimatebb.cgi?ubb=get\\_topic;f=14;t=002168](http://136.142.210.78/CW/ubb/CGI/ultimatebb.cgi?ubb=get_topic;f=14;t=002168)

And mention all the insults directed at this community, but since that didn't happen in this forum, I'm not including it as for who insulted the community first.

Fine your right mayb that wasnt the smart line to say. But you can take it as you like. And about that link - do you seriously think all of Crimsons people dont talk trash about us? I mean seriously, havent you heard what Jav has said about us? Shit...this is getting pointless, i dont want to win this anymore becuz its just getting stupid, you dont stop posting stupid ass things. Shit, bottom line is we asked for game, and regardless of what any comments or insults me or anyone else has said about these forums none of you accepted (except Jav). If you come to our forums talkin crap and challenge us we'd accept in a heartbeat, but you guys still talk crap (again regardless of what me or anyone from CW say) and cant back it up. Only one that probaly could is Jav...but everyone else dodges. Thats the whole point of this conversation/agruement wasnt it? To get game out of you all and try and bring back Ren through this game...crap man just shut it Warranto its pointless to continue this arguement. If you want i can really get on your nerves and annoy you. Just ask Ice this is light compared to things i say on CW. So why not drop it?

Actually, no one on this forum ever said anything about CW until this garbage started happening. And if you noticed, I don't support the blatant insult of CW either, which is why I haven't posted in that "CW leads a limited carrer path" or whatever the thread is. That thread is a free for all as far as I'm concerned. The thread was started in retaliation for what was said in the challange thread (I assume), but it was a childish and imature thing to do. I agree this agrument is pointless, though the only way you could get on my nerves was to post more idiotic stuff with your self-rightous attituede.

So in a few months, when this arguement has calmed down, try asking again. If it's kept nice and civil (by both sides), I'll gladly accept the challange then.

4th post on that thread was the first offensive thing said on these forums between comm n cw

Then let me rephrase that then. Nothing completely unfounded was said before the challenge occurred.

Crimson was right, carrying on a hatred further than it needed to be IS childish. While it was an insult, it was not unfounded.

However, what x50c3nt said was completely unprovoked considering he only gave a couple of hours for those in question to respond.

I'm not trying to restart an argument, but there was a difference.

Rolling eye graemlins do not denote sarcasm. With your logic, you're saying simply putting a rolling eye graemlin into a post makes it sarcastic. The opposite is true - sarcasm is achieved through skillful wordplay and the ability to manipulate an opponent's words to make them look foolish - a cutting remark.

Nothing you've written would fit that criteria. Now go crawl back under the rock you came from.

Here's the problem.

This match is supposed to prove who are the better players at Renegade. Personally, I know you guys are good at the game. I also know I'm good, but not great at it. No one is disputing skill at Renegade. We are disputing which forums are filled with idiots and which ones are not. How will a Renegade matchup settle this dispute?

If we win, will you guys submit to the fact that you're a bunch of retards? If we lose, will we submit that I am a fat bitch and I stole the forums from Westwood and shut down n00bstories?

The answer to both questions is NO. Therefore, matchup is USELESS.

I didnt think this was ever an arguement about whos forum has more idiots. I no clanwars has more idiots thats no question.

Im a little racist child ( :rolleyes: ), 50 is a rotting bag of goat semen, Hydro is just an all around faggot ass little kid, and the rest of the clanwars forums are a bunch of moronic n00bs.

But on the other hand the Community forums is a bunch of 14 - 40 year old n00bs who think they are good at renegade but they really suck.

To me this had nothing to do with that, we just wanted a match sense theres nothing better to do on renegade now. And we need to kill time till halo comes out for pc. (btw when is that)

Hydro has a fear of large posts?

I basically don't see the issue. If CW wins, CW would expect this and therefore probably won't even care much. They're all done with renegade anyway, they'd only come back for an organized game, because those are the only fun games there are. Noobstories would come back with a sense of pride and these boards would liven up again with the stories of how they won and what they did, etc.... If noobstories forums won, the people from CW in the game would probalby just dissappear altogether. They might post on CW forums for a day or two, but after that they won't even be heard from again as most don't even play renegade.

It'd be more or less like a reunion game. CW would bring back all of the people who used to post there that are good at the game, and noobstories would do the same. It wouldn't be the current people at CW as they're just a bunch of children. It's just a chance to get some large, organized games against two different groups, in a game that they have in common. We could play all 10 maps as I'm sure most anyone that would be involved would like to play many games. This game would also be a lot easier than the WOL vs Gamespy game as we'd be playing on WOL and not gamespy. I just think once renguard comes out, that this could be a good idea and create interest in this game again.

You say it's to prove who the better players are, and I disagree. I think there are better players on both sides. CW has a lot of individuals who will come out and perform on the individual level within games, while the people at noobstories, while working and coordinating together, could beat anyone. You say it's just a way to prove which board has the biggest idiots. Well that's easy, the current people posting at CW are the biggest idiots. But luckily, they would not be involved in such a game. Icesword, 50cent, none of those would play, and you know what, that would piss them off. Could you think of any better slap in the face to those guys than have the game, then they see they're not even going to get to play? I'm telling them right now, they wouldn't play, so why they're here, I don't know.

I personally just want a large organized games, as those are the only ones I'd be interested in playing these days. After over a year and a half of Renegade, I was hoping for more games like

this. Go back to Gamespy vs WOL. WOL won. Gamespy didn't cry cheat, WOL didn't boast about it. WOL won, Gamespy lost. End of story, they were good games. A week later in fact both sides were trying to organize another game. Although those didn't hold up as well as the first, they were still fun, or at least those that played said that.

I just don't see what the problem of having a fun, large, organized game is. You guys could host or we could host, it doesn't matter. We could do all 10 maps or have each side pick a few, it doesn't matter. We'll wait for RenGuard as well so there's no cheating or any of that because I hear that's going on a lot now days. I just see it as a get-together game between those who have been playing the game the longest. It should be the best of the best around so I couldn't imagine anything better. It's been a long time and this game is slowly dying away. Eventually we'll just lose any chance of ever having something like this take place.

In my opinion, this was never about who has the most idiots in there forums. Personally, CW has the most. Why bicker about whos a moron and whos not? This is a ONLINE GAME! Not a personality contest. These forums and CW forums are based on the game "C&C Renegade" arent they? So both forums connect to the game dont they? It is a matter of skill, becuz its a waste of time sitting in at home going to forums arguing all day about whos better and whos the idiot. So why not play the game? Its just so stupid that we argue back and forth over who has better forums, who has most idiots, who has most n00bs etc...WHY NOT FUCKING PLAY A GAME? Jesus, like i said around here its all talk but no play - and i've proved it with help from n00bs like ACK, warranto, "bigjoe". Its useless to sit here arguing - JUST FUCKING PLAY. But if it takes a 10 page thread to get you people to play us, then of course we're going to disrespect you and call you n00bs. Even with when games over win or lose, we're not going to stop insulting each other, so whats there to lose? Pride? Rep? Pride is the sign of a foolish man and rep means shit in a ONLINE GAME! So why not accept the challenge Crimson? It seems as if your the biggest dodger of everyone here. "It wont prove anything", shit stfu and play...but no it takes a 10 page thread to even TRY and convince you ppl, its fucking sad.

Well, since no one has bothered to comment on this, I guess it falls to me. ACK, your getting sloppy.

x50c3ntACK's a 19 year old who spends his days making maps for 14 y/os (no life),

Way to go... you just insulted almost every game production team ever created. What do you think they do? The spend their lives creating levels for youth. Besides, since when have only 14 year olds played this game? There are many people 20 and older (quite a bit older in fact) that play this game.

PhilCollinsHydro has a fear of large posts?

I basically don't see the issue. If CW wins, CW would expect this and therefore probably won't even care much. They're all done with renegade anyway, they'd only come back for an organized game, because those are the only fun games there are. Noobstories would come back with a sense of pride and these boards would liven up again with the stories of how they won and what they did, etc.... If noobstories forums won, the people from CW in the game would probalby just dissappear altogether. They might post on CW forums for a day or two, but after that they won't even be heard from again as most don't even play renegade.

It'd be more or less like a reunion game. CW would bring back all of the people who used to post there that are good at the game, and noobstories would do the same. It wouldn't be the current people at CW as they're just a bunch of children. It's just a chance to get some large, organized games against two different groups, in a game that they have in common. We could play all 10 maps as I'm sure most anyone that would be involved would like to play many games. This game would also be a lot easier than the WOL vs Gamespy game as we'd be playing on WOL and not gamespy. I just think once renguard comes out, that this could be a good idea and create interest in this game again.

You say it's to prove who the better players are, and I disagree. I think there are better players on both sides. CW has a lot of individuals who will come out and perform on the individual level within games, while the people at noobstories, while working and coordinating together, could beat anyone. You say it's just a way to prove which board has the biggest idiots. Well that's easy, the current people posting at CW are the biggest idiots. But luckily, they would not be involved in such a game. Icesword, 50cent, none of those would play, and you know what, that would piss them off. Could you think of any better slap in the face to those guys than have the game, then they see they're not even going to get to play? I'm telling them right now, they wouldn't play, so why they're here, I don't know.

I personally just want a large organized games, as those are the only ones I'd be interested in playing these days. After over a year and a half of Renegade, I was hoping for more games like this. Go back to Gamespy vs WOL. WOL won. Gamespy didn't cry cheat, WOL didn't boast about it. WOL won, Gamespy lost. End of story, they were good games. A week later in fact both sides were trying to organize another game. Although those didn't hold up as well as the first, they were still fun, or at least those that played said that.

I just don't see what the problem of having a fun, large, organized game is. You guys could host or we could host, it doesn't matter. We could do all 10 maps or have each side pick a few, it

doesn't matter. We'll wait for RenGuard as well so there's no cheating or any of that because I hear that's going on a lot now days. I just see it as a get-together game between those who have been playing the game the longest. It should be the best of the best around so I couldn't imagine anything better. It's been a long time and this game is slowly dying away. Eventually we'll just lose any chance of ever having something like this take place.

Sigh... Do u really think you would get picked u stupid n00b yea right to bad i am 10x better at this game then u bitch? if i didnt get picked you sure as hell wouldnt n00b. Dont believe me? 1v1? cmon n00b play me.

Humble arguement? Since when is insulting people relentlessly being humble??? And since you obviously SO much more intelligent than I am, would you please show me how I continue to argue

over a game, rather than the immature behavior of a particular of child? Yes I've mentioned the game in a couple of my posts, but the majority, and definatly the more recent ones have been simply showing how your logic is flawed. As someone once said, when all else fails, there's always delusion. Which you and a couple of others in the Renegade world fall under (one such person being abarrat). And as for argueing over playing, that would apply to you as well, right?

Though I'm sure many have noticed one thing. You never really have disputed most of what I've said, rather you go and swear at me and call me all sorts of interesting names. You also say that I'm wrong, but never provide any sort of proof.

Who cares how old you are, how old I am, how old anyone is. This is a forum, and if age was meant to mean something it would be included in your posts.

As for trying to prove you wrong, I never even broke a sweat proving you wrong. The problem is, you fail to see that. I have time and time again used evidence to prove you wrong (part of which is refering to previous posts -which is probably why you always seem to dislike me doing that), you on the otherhand have done nothing of the sort other than simply stating I was wrong. So here's your chance, prove that everything I have said is wrong.

Hmmm... me argueing with you proves I have no life? Well, this is another piece of evidence about you dilusional state. Because you must have realized that the exact same situation applies to you as well, seeing as you've done nothing but "run your mouth" so to speak.

As for me "defending" ACK, I have never done anything of the sort. I have simply disputed your "facts" about him. People have insulted him in the past with "he abuses his powers" and "he's a jerk (or some variant thereof)" I have never defended these accusations, why? Because they're usually right. But when people start labeling others as things that they are not, then I correct them (as I did with captkurt).
