I like the SBH camping bit on 'under' at the very top of ridge to deny GDI the area to camp for sniping. I hate when my teammates allow that to happen. So on that map I almost never take armour except ST to run over snipers and hit meds from the rear. If Nod is fortunate enough to control the ridge or no one controls GDI had best beware my raveshaw from the ridge.I remember that night, you were everywhere in that dam ST. Then you placed c-4 on my butt in my own AGT. That was funny.
