Jeg -- your 100\% right on the blocking ---that is what i do when on BD ---> block in a med/FT once as a Nod FT - on Hourglass - i held off two APVS (with 3 riders in each) and one Mamie - they made the mistake of concentrating on one side - in single file ---came in from the right.as i slammed into the first APV - flame on!destroyed it (obi was helping also) and i ran over the units inside - \*boink\* \*boink\* \*boink\*(lucky for me they had there gizmo on -- love that free repair!)i then slammed into the second -- which bottled up the mamie -- a few seconds later - pop! - three more boinks.then i went on to the mamie - - POP - boink....the whole thing lasted about 30 seconds -- i was actually shaking at the kbd - wondering how that happened..... had 7 roadkills and 3 vehicles --the obi took some damage - but with the engies inside -- they never had a chance...(thanks to Zukkov - for his lessons in BaseD!)
