If you want to see a cool light show and kill a harvester then get a becon and 2 buggy/hummer in cnc:under and have one push the harvy aganst a rock then put it on one side, then put the other one on the other side. run in and set the becon behind the harvy (its on the tiberin field but you wont die from it). then run up the spirl ramp to the vantige point and watch all vehicles blow. it works even better if someone trys to steal on of the buggys/hummers and get himself blown. its a waste of money but it looks cool.
