Those rockets DO do a decent amount of damage to buildings. H3ll, I was able on City to fly an Apache right behind the refinery, C4ed it to make sure whoever stole it had a nice fall, and took out GDI's refinery. The kicker was that a Havoc stole my chopper, flew to altitude, the C4 detonated, he fell and died only to yell "WTF HACK WAS THAT? I DIED IN ONE SHOT!" Tip: ALWAYS BOOBY TRAP CHOPPERS IF YOU KNOW YOU CAN'T GET OUT OF A BASE IN THEM. ONE C4 WILL TAKE DOWN A FULLY POWERED CHOPPER, so even if the prick gets it repaired, he doesn't get it, and you chance taking out the guy repairing, too. Nice one i always doing this when i'm leaving my vehicle somewhere in my own base.. i place the timed c4 on my vehicle so someone has 30 sec to get in the vehicle.... and if enemy steals it ... boom.... Only do this when your vehicle has alot of damage and can be blown with one c4..
