The cool part is that you get Duff Man with the truck, so when you die, you get the character of Duff man to play around with. These two scantily clad chicks pop out, too, and start dancing for GDI, which has the effect of automatically drawing them out of their Mammy's, leaving them free for the stealin'. I heard they originally wanted to use Spuds MacKenzie as the extra character in the vehicle, but they couldn't get the rights. Guess Matt Groening is better about that kinda stuff.
