so many of you morons are getting out of your tanks to repair them this really upsets me for 2 reasons1) as an engineer i get no points for repairing a empty vehicle and neither does my team in a game where high score wins most of the time2) i get so tired of having to destroy vehicles stolen by the other team when some newbie moron gets out to repair in the middle of open field with enemy 2 steps awaySTAY IN YOUR TANKS MORONS!!! BETTER TO HAVE IT DESTROYED THAN TAKEN BY THE OTHER TEAM!!!
