It sucked. You see a couple tits, people suddenly disappear and there are a lot of zombies. There were some cool guns the one guy has, but he ends up risking life for a couple because he was injured and didn't want to go on. I forget if he survives at the end... At the end two people actually make it alive, some dude and chick.

There was some cool killings in it, but overall I give it a 2.5/5.
