Once I get the stuff from TheKGBSpy and the last thing from NeoSaber and merge them in, 1.8 will be ready for QA.

So I need some people who can help by making test maps that use various of the new scripts so that I can verify that they work as advertized.
Contact me via AIM/ICQ/MSN/Yahoo or on n00bstories IRC in #bhs_support or #n00bstories if you are able to help.
