knight1bretards ? ok one the pt thing is a bug i know wth it is aperaturely you dont second mods must be held to the highest level they do represent the server and exploiting a bug is not exactly upholding the rules in which those kind of exploits are forbidden.

Wow. You're impressive. Only registered a day, and already you join my shitlist next to such accomplished idiots such as sw33t, Neox, and nodbugger.

Obviously, the PT thing is a bug. We all know it's a bug. And in fact, I support them banning him, since server owners should and can ban people for whatever they want.

Now, that being said ... it is obviously not an exploit, since for something to be an exploit you need to be able to exploit it.

m-w.comex-ploit

1 : to make productive use of : UTILIZE <exploiting your talents>

2 : to make use of meanly or unjustly for one's own advantage <exploiting migrant farm workers>

Now, this use was neither productive nor unjust. After all, as was said earlier, the only way that MAYBE this could be exploited would be to see a rush coming for the agt and mine to kill people who get in ... but then you wouldn't be able to be in there either, or you'd die from your own c4.

In addition, Each c4 you throw after the first one stacks on the previous one, so when the first c4 blows, the rest disappear. Just fyi.

Anyway, in conclusion:

You're an idiot.

You can't spell, or use proper grammar.

I hate you, and I don't even know you yet.

Next time you register in a forum, wait a while before instantly posting.

Please die. Thanks.
