PermaGrinWTF? Do you people always need to put people work down that doesnt meet your standards? In the logic of ACK, if you dont like Reborn, dont read about it. We dont need to hear, "omg, looks like plastic", nearly every post on every model. Move on.

I've said it's plastic as needed. When he first posted it, it looked like plastic and I told him so.

People continued to debate it, so I told them how it looked like plastic. Renardin came out with the finished version, and it still looks like plastic, therefore I said it looks like plastic.
