Damn. Liberty everytime.

Java's a better sniper than I am. Does that mean that I should get Final so that he and I are "equal"? No?

Then you shouldn't have AIMKBOT!!!11 for real life, either.

Besides, I'd rather live in Anarcho-Capitalism than Blind-Sheep-Communism.

The rason? Human society will balance itself (or end) from a chaotic beginning. In a strictly controlled environment, it either degenerates, or eventually rebels to a chaos from which it can reform itself. I say, skip the middleman; go straight to Chaos.

Wr0d.
