Ignore the download link of RenSkirmish, what you're after would be the AI maps available below it. C&C_Under is the map used in the MP Practice.

C&C_City_AI
C&C_Complex_AI
C&C_Field_AI
C&C_Under_AI
C&C_Walls_AI

Once you've placed them in your Renegade\Data directory you'll be able to host them with a LAN and play with your mates.
