HA! got it!

The reason the game crashed when entering a suppy was that i made the pistol the second weapon, this is now fixed and i use a script to give a pistol.

Tanya had the same problem since it's a temp of a pistol.

I still removed the phase tho, it's PT icon did not fit with the new ones and once you got out and back in it you could no longer see it...

Now all that's left to do is test it with a server...
