This file is part of renguard and is detected as a virus by some scanners, (When I first installed renguard I had this problem, just set an exception in PC Cillin or whatever AV software you are using)
Please disregard.

It is NOT a virus. Just a file rg uses. :mrgreen:

EDIT:

Known AV Software to detect SVKP.sys as a virus:

Trend Micro PC-Cillin 2003 and Older (Outdated pattern files).

AVG Anti Virus Free AND Professional editions 5.9.x.

McAfee (Unconfirmed on versions, only had 1 to test with)

Norton AntiVirus 2002 - 2003 - 2004 With outdated virus definitions as of 4/18/2004.

* I will add to this list as I have the opportunity to test more.
