Subject: Something needs to be done about Titan1x77's constant spam

I noticed when importing the old Mod Forum posts that he had some posts on the old forums too. I really don't think he is TRYING to spam, but I certainly agree he should read some tutorials before asking questions about every single little thing. If it really is so hard for him, maybe he should just concede that map making is too difficult for him. It's no shame, everyone cannot be proficient at everything.
