Subject: Invitation to TheOrder server
Posted by SickOptometrist on Wed, 29 Sep 2004 01:06:00 GMT

BlazerHoly huge map rotation batman!
Might want to give some other info on the server, like the number of players, and what kind of hardware and internet connection (so people know whether or not to expect a lag free game).

100 mbps uplink fiberoptic w/ quad 2.8 xeon processors - minimal lag - 28 player
Go here for specifics - http://www.frontlines-gaming.com/
