fearrichAh - so how old are you 2 if you're founders of a clan?

ROFL as they said. Im 16, its a community we've started that involves graphics, coding, scripting and a few other things. I am Head of Divsion for [EoE] End of Evolution a clan started by many of members from the now defunct (But still great) [FoD] Forces of Diversion, but seeing how you already have shown yourself to be a massive n00b you have no idea who either is i assume.

I r American.
