That's the thing. I never said they were the same thing. Now if you can take some Ritalin and pay attention, Retardin, you'll see what I was talking about.

com·mu·nism    P    Pronunciation Key (kmy-nzm)

n.

A theoretical economic system characterized by the collective ownership of property and by the organization of labor for the common advantage of all members.

so·cial·ism    P    Pronunciation Key (ssh-lzm)

n.

Any of various theories or systems of social organization in which the means of producing and distributing goods is owned collectively or by a centralized government that often plans and controls the economy.

The stage in Marxist-Leninist theory intermediate between capitalism and communism, in which collective ownership of the economy under the dictatorship of the proletariat has not yet been successfully achieved.

What do you know? It's almost the same thing.
