Subject: Breed-specific bans? What the hell are they smoking?

The only out of control dogs are the ones with idiot owners. Of course if the dog is not trained properly, it's going to be out of control and no one will be able to control it.

What the hell is banning them going to solve? "We don't want these vicious dogs here, so lets put them somewhere else! Where they can attack other people!"

They're just too damn lazy(or cheap), to enforce anything else.
