Subject: IMPORTANT If you are having problems installing Core Patch 1

If you are having any problems installing Core Patch 1 (e.g. always.dbs is disappearing, downloader starts but doesnt download anything etc), I need to know about it so I can find out why and hopefully fix it
You can find me at AIM jonwil2002 MSN JonathanWilson623@hotmail.com ICQ 77572965 or in #bhs_support on n00bstories IRC.

Also, if you get any errors from the CP1 installer (e.g. if the language installer spits out an error), MAKE A NOTE OF IT (a screenshot of the error would be nice but make sure to move any message box out of the way of the CP1 downloader window so I can see what it says underneath)
