If i had to pick one moment in MY life that would change something personlly to me, i'd go back to second grade. I wouldn't get involved with some of the people i am now, because they told me it was cool to be rude to my parents and shit, and swear at them, and its not and since i was little i thought it was and its a really hard habbit to break. The little bastard ruined a good portion of my life making me look like an ass at school all the time and making me get made fun of all the through elementry school. I'd go back to 3 years ago before he moved and i'd kill the fucker. (not kill but beat the living hell otu of him so bad he wishes he was dead.)
