Subject: still doesnt work
Posted by noodleet on Sun, 05 Dec 2004 12:48:49 GMT

i put it in data and renegade and it still has just the mp3dec link - it says this - "click on those download links, overwrite you corrupt maps, and when you are done restard renguard. still not fixed   i think i will try just downloading all the maps again, or copying them off the cd, actually i will just reinstall renegade
