Subject: internet explorer....
Posted by matrixdm4 on Sun, 12 Dec 2004 01:35:03 GMT

ummmm... I don't mean to be difficult, but this doesn't seem to be helping me too much. So your answer would be to just use Mozilla instead of IE? If possible, I would rather like to keep IE, never had any issues before with it. Any advice along this line? Thanx again.
