First: DON'T USE CAPS AT ALL UR TEXT!! ITS HARD TO READ!
Second: Reinstall Renegade to get rid of CP1
Third: What has your reply to do with the fact that another person cannot install it?

@Sterps, What method do u used to install CP1?
Renguard or Standalone?
And is your Rengade sintalled properly? Or Any error messages?
Try the topic that tells you how to reinstall CP1, that might helps.
