Subject: Brenbot IP + port support!
Posted by Dethdeath on Wed, 22 Dec 2004 01:26:19 GMT

For your ip, visit this site:
http://www.whatismyip.com/
For the port, use the same port as the one in "server.ini" in the Server dir.

And no, brenbot won't work when using "Host" ingame, it only works while using the FDS.
