Subject: Trouble downloading/installing CP1
Posted by Krouger on Tue, 04 Jan 2005 20:28:02 GMT

Apparently, there was something wrong with the patch when i downloaded it (renegade, not CP1) so I have to reinstall Renegade..once that is done and i patch it fully we will see if it works.

EDIT 2: well, i reinstalled everything except for CP1
I am getting an error saying "verify of new file failed. possible internal error" right at the end of MutationRedux
