SuperFlyingEngiYou know how the world universally coughed up Ukraine's exit poll numbers and made them re-do their election?

Ohio's exit polls were even worse.

Which I'm sure you can prove.. I mean, no one would really make a comment like that unless it was factual and could be backed up, right?

Or is it again, just more spew..

Hey everyone!! Look at me!! I have something to say that I heard somewhere from some guy that I can't remember!! But it's true!.
