xC4pRoXVerizon sucks. They said my new connection (3mbps/768kbps) would be activated yesterday at 6 pm. So what did I do? I installed my new pwnage modem today. The speed hasn't changed at all. It's still 380 kbps...OMFG!

\*grabs the shotty\*

I'm on 380kb, and my site doesn't appear to run slowly
