Genius, I am calling YOU an idiot. Why? Because you're a fucking dumbass. You can't type coherently, so why would I think anything else of your lame ass? Also, if you havn't noticed, it takes a lot of skill to what they did, and if you're so "1337" then maybe you should attempt to make a program like RenGuard. Oh, I forgot, you'd actually have to KNOW something to do that. So sorry.
