It's not let's be black, it's let's get Old Navy to make 27x36 jeans. When I have to wear 34x36 jeans, of course they fall down. They're like way way too big. They don't make them long enough. As they get longer they also get wider. I have the same problem with shirsts. I look like... a sail cause I'm wearing a XL for length and It's big enough for the Kool-Aid guy.
