Hi, I was going to upgrade my graphics card to a much better card!
My two choices are ATI Radeon X800XT, and Geforce 6800 Ultra, and I am willing to spend up to $600 Canadian!

Please give me your comment about which one is better for more fps and better picture quality in games, (IF YOU CAN? PLEASE GIVE ME FEEDBACK ON RENEGADE, WHAT I MEAN IS WHICH GRAPHIC CARD WORKS BETTER AND HAS MORE FPS AND BETTER PICTURE QUALITY)

PLEASE BE SIMPLE AND CLEAN!
THX
