You're your own kind of person, the kind who doesn't get smart. I see.

Either way, Blazer is in the right here. WSE fucked up games, Cyberpunk is trying to fuck up games. Neither of those facts can be denied, and whether you were part of WSE or not (which you were, but what the hell, for the argument's sake) is irrelevant in every way.

WSE and Cyberpunk are quite the same. Why you want to defend either one boggles the mind.
