Subject: Is my system good for Renegade?
Posted by Dave Anderson on Tue, 22 Feb 2005 04:17:56 GMT

you guys are stupid. lol. your hard drives were 80GB before the manufacturer put the hardware on it. rofl. All your programs take up memory you know, they dont give you free space. lol. FUNNY.

Im getting hard wired internet, so no more problems
new graphics card, dont know which one yet, feel free to reccomend cards for me
and more ram
